Introduction

- For several years we realize the importance of the Church being present on the Internet and thus help the men and women to Jesus;
- The message of Christ is more important than the technology and layout; we must not lose focus "proclaim the good news of Jesus"
- For many people the internet is vital because it is there that are, make contacts, seek information, and make decisions.
- be on the Internet and social networks helps make visible the Church. it is necessary to modernize and innovate
